Vedancure at G20 Medical Tourism Summit in Imphal.

Vedancure.com is Asia's fastest growing medical tourism company that provides medical travelers with one stop solutions, said its Chief Executive Officer, Dr. Manuj Mittal while talking to Mr. MD Rahman, High Commissioner of Bangladesh recently at G-20 Summit at Imphal.

Travelling abroad for medical purposes can be challenging. Most of the time patients are unaware of what disease they have, which country or hospital they should go to, or what the cost would be. That is where Vedancure.com comes in.

Vedancure.com helps patients from the very beginning of contact till the point of return during a patient's medical travel. The company has tie-ups with hospitals in India, UAE, Thailand, Turkey and many other countries, it facilitates travel to several renowned hospitals in these aforementioned countries mainly in India with India having the top healthcare providers and world-class healthcare Infrastructure for their respective medical treatments and tourism.

We are a fully funded medical tourism company. We don't charge the patients for our consultancy services,' said Dr. Mittal

In the near future, Vedancure plans to work with Bangladeshi hospitals too. 'We wish to invite foreign doctors in Bangladesh. We want to organize hands on training at surgical camps where foreign doctors and local doctors can exchange their experiences. It will work for mutual benefit,' said Dr. Mittal.
